Redux

PERSONAL PROJECTS

Hotel Booking Engine 📄

- Fully responsive website which is created using **HTML5, CSS3**.
- Website is inspired by online hotel booking Engines.
- Used advanced CSS Concepts like **Flexbox** to enhance the responsiveness the site.

Weather Forecast 📄

- It is a **live weather Website** that provides you accurate weather information, no matter where you are.
- This project was made using Html5, Css3, **Javascript**.
- Weather API takes from **Openweathermap.org**

Multi-Games 📄

- This project was made using latest **ReactJs**.
- The project contains two games - an emoticon slot machine(where the user needs three identical emoticons to win) and a conventional tic-tac-toe game.
- Used advanced react js concepts such as **useState, useRef, useEffect, useContext** and also use **react routing** to achieve the game functionality.
